

Contract Opportunity

Background

Prismatic are undertaking an overseas flight trial of the PHASA-35 HALE UAV in Q4 2020 and are seeking a current, instrument rated commercial pilot to act as remote pilot for this activity working under Prismatic flight governance.

The role is a temporary contract position which could suit a qualified pilot with an interest in UAVs and the ability to support an overseas exercise of approximately 6 weeks duration in November / December 2020.

Role – UAS Remote Pilot

Manual piloting of PHASA-35 vehicle as required and interface with ATC during operation.

Tasks

The activity will be in 3, non-sequential blocks for which an undertaking will be required to support all three.

- 1 Simulator and flight crew training at Prismatic, UK – Sept/Oct 2020
- 2 Flight training in Spain, October 2020
- 3 Deployment for flight trial for 4-6 weeks Nov / Dec 2020

The primary role is to act as the Remote Pilot of the PHASA-35 HALE UAV with responsibility for,

1. Ensuring the flight adheres to the rules of the air and all constraints imposed on the operation by the regulatory authority as defined in the permit for operation
2. Communication with ATC

Qualifications / Experience

The following qualifications are essential

- Instrument qualified commercial pilot licence current until March 2021
- UK, EU or Australian nationality

The following qualifications are desirable

- CPL Australia
- Experience with beyond visual line of sight 3rd party control of UAV

Principal Terms and Conditions

- Contract position, terms to be agreed
- T&S on economy basis (Spain and Australia), to be arranged by Prismatic

Selection Process

- Clarifications and applications to info@prismaticltd.co.uk
- Practical evaluation and selection July 2020
